Think Practice Peace

Philippians 4:8-9

8Finally, brothers and sisters, whatever is true, whatever is noble, whatever is right, whatever is pure, whatever is lovely, whatever is admirable—if anything is excellent or praiseworthy—think about such things. 9Whatever you have learned or received or seen in me—put

Rev. Dr. Charles F. Marshall, III
Senior Pastor

it into practice. And the God of peace will be with you.

The Apostle Paul gave some sage advice to the believers in Philippi. Paul said watch what you think, practice what I taught you and the God of peace will be with you.

The most powerful thing, he said lastly. The God of peace will be with you. There is comfort in knowing that when you are obedient to God and walk in His commands, God promises to be with you. The one who created heaven and earth, controls the seas and skies, the earth and the universe is with you. With that kind of power, you should be able to rest in peace.

What's more is if you work on your mind by giving it good things to think on, it will help you to direct your actions.

Proverbs 4:23 says "Above all else, guard your heart, for everything you do flows from it." If your heart is selfish, your actions will be selfish. If your heart is spiteful, your actions will be spiteful. If your heart evil, your actions will be evil. If your heart is good, your actions will be good.

Don't just limit yourself to what Paul says but "whatever you have learned from God, put it into practice. And the God of peace will be with you."

Be Blessed.

MAY GOD BE WITH YOU!

Calling Singers To Record

As you know, we are using and developing our use of this virtual platform for ministry. We are in the process of preparing for recording some songs to include in the worship. If you are interested in singing with us, please contact us at Fountainofhopeatl@gmail.com. Also, if you are an instrumentalist who would be interested in sharing your gift, let us know.

We will record several songs during this day of fellowship, worship, and praise.

What Is Cancer?

Cancer is a group of diseases where abnormal cells grow out of control and crowd out normal cells. It affects 1 in 3 people in the United States. Chances are that you or someone you know has been affected by cancer. Here is some information to help you better understand what cancer is.

What makes something cancer?

There are many different kinds of cancer, but they all involve abnormal cells. Cancers often have these features:

- **Gene changes (mutations):** Cancer cells have changes in their genes that make them abnormal. Some of these gene changes may be passed down from a parent (inherited mutations), while others may happen later in life (acquired mutations).
- **Uncontrolled cell growth:** Most abnormal cells die off or are unable to reproduce. But cancer cells can keep growing and dividing to make more abnormal cells. Cancer cells can crowd out normal cells.
- **Tumor formation:** Not all cancer cells form tumors, and not all tumors are cancer. But many types of cancer cells do clump together to form tumors.
- **Cancer spread (metastasis):** Cancer cells can invade nearby tissues, and many can even spread to other parts of the body.
